ARVISTA GARDENS

168 Grand Blvd. Battle Creek, Michigan

35th Year

TERMS: Cash with order, by check, draft, or money order. Discounts only as noted. No discounts on special collections or Tree Peonies except as noted

LOWER PRICES

We plan considerable reductions in our stocks this year so are making materially lower prices on most items.

SPECIAL: On all orders received before June 1, 1958 amounting to a net of \$5 or more, we allow a special discount of 10 per cent, not including special or collection offers or Tree Peonies.

TRANSPORTATION: We pay parcel post or express charges on all retail orders in the U.S.A. that amount to \$4 or more except as noted. On smaller orders, kindly add 40 cents for postage and packing. After an increase in postal rates, add 50 cents instead of 40 cents.

MICHIGAN CUSTOMERS: Please add 3 per cent sales tax.

Send with your order the names of five or more friends interested in Iris, Hemerocallis or Tree Peonies, and we will be glad to include some extras with your order.

We are very grateful to all our customers who have sent us such nice orders. In filling orders, we always try to do a little more than we promise.

The home of ARVISTA GARDENS is just three houses north of Highway US-12, one block east of its junction with M-78

Visitors are always welcome at Arvista Gardens, though on Saturdays we are usually otherwise occupied and cannot give personal attention.

SHIPPING TIME

Beardless Irises may be shipped through out the season except when in bloom. They should have plenty of moisture until established. Bearded Irises are shipped from early July to the close of the season. Planting instructions accompany all shipments.

We ship Hemerocallis whenever the ground is open excepting during the peak bloom season in July.

SPECIAL

If your order for daylilies, Irises, Oriental Poppies, and (or) Peonies (not including Tree Peonies), amounts to \$10.00 or more, you may select additional plants to one-third the amount of your order.

If your order for TREE PEONIES amounts to \$25.00 or more, you may select additional Tree Peonies or other plants to one-fourth the amount of your order.

IRIS GARDEN SPECIAL

We will send you 30 Irises, unlabeled including at least 15 varieties—most likely more, our selection, for only \$5.00, express charges collect.

You would naturally think that there is a string attached to this offer. Well, there is. All we ask is that when the irises burst into bloom, and you show them to your friends and neighbors, you tell them where they came from. We charge this to advertising.

DAYLILIES (Hemerocallis)

DAYLILIES of today are vastly superior to the earlier sorts, and as yet comparatively few gardeners are familiar with them

We wish to diminish our activities somewhat, and to this end have reduced our prices considerably on most items, also our descriptions

To make you better acquainted with modern Hemerocallis, we offer 10 beautiful varieties, named and labeled for only \$3.50 postpaid; or unlabeled for only \$2.50 with an order that totals \$5.00 or more.

We shall gladly quote attractive prices on lots of 50 to 1000 roots.

Some Irises and Hemerocallis are in short supply, so please name a number of possible substitutions that would please you. ((\$m esend

THE MAGNIFICENT TREE PEONIES

(Paeonia Arborea)

These are the aristocrats of all peonies. With woody stems, the plants attain a height of over five feet and a similar spread, and show colors unknown in the Chinese classes. Not only do they possess the finest shades of pink, red, and white, but also develop flowers of pure yellow and orange, lavender, violet and purple. They bloom generally earlier than the herbaceous Peonies and the fine sorts herein offered represent perhaps the best available today. We offer two year plants from five inch pots which can be shipped and planted any time that the ground is open. These are the most free blooming sorts.

Also this season for the first time, we offer some varieties in blooming size, 3-5 year old undivied clumps. Shipments by express collect only.

DOUBLE CHINENSIS VARIETIES

- ATHLETE** Large double flowers of fine glazed mauve From 5 in. pots shaded rose vigorous and prolific. Undivied 3 - 5 yr. clumps. \$5.00
- JULES PIROLOT** — A magnificent variety of perfect globular form. Satiny pink flushed carmine. Very free blooming. 3-5 yr. clumps 6.00
- SOUVENIR DE DUCHER** — Large globular bloom of bright reddish violet with silvery reflex. One of the finest dark colored varieties. three to five year clumps 7.00

MARVELOUS AND NOVEL LUTEA HYBRIDS

These hybrids form a class all their own. derived from Paeonia Lutea. They have luxuriant bright green foliage and an exceptionally long blooming season. They bloom just before the ordinary Peonies and continue to almost two weeks after all others are out of bloom. The celebrated yellow varieties are in this group.

- ARGOSY** — Single flower of clear bright yellow, with a red blotch at the base of the petal. Flowers are from five to seven inches across, very free blooming. 2 yr. clump \$5.00 5 yr. clump \$9.00
- FLAMBEAU** — Full double flower of bright salmon red with amaranth veins passing to paler after some days. A great novelty 9.00
- LA LORRAINE** — Full double flowers of soft sulphur yellow flushed salmon. The color becomes purer when fully expanded. Formerly \$35.00 now 2 yr. clump \$6.00 5 yr. clump \$10.00
- SATIN ROUGE** — An altogether new color in peonies - double blood-orange A vigorous plant with bright green foliage. two year \$9.00

JAPANESE VARIETIES

- FLORA** — Enchantingly beautiful pure, transparent white, slightly bloched violet-carmine in the throat. Immense flower of marvelous form. "Once you have this established in your garden, you will worship it." 5.00
- YASONO-MINE** — Very large double flowers of the purest white on strong, upright stems. The very finest white we know 8.00

These Japanese varieties and Lutea Hybrids have the following advantages: They bloom much earlier, that is, on younger plants. They bloom more profusely and continuously year after year. They have more brilliant colors, ranging from fiery red through pink, orange, terra cotta, to almost pure yellow and, of course, pure white.

Tree Peonies were considered almost sacred in the imperial gardens of the Chinese Emperors centuries ago. They were grown in borders and beds, also in large tubs in their inner courts. It is recorded that these tubbed Tree Peonies produced as many as 400 blossoms to the plant. Single plants were valued at 100 ounces in gold: and in 1789 were sold for as much as 100 Louis d'Or (\$460.00) each in Europe.

These exquisite and aristocratic plants are ideal for use in formal beds, as single specimens or in tubs.

NOTICE: To Denver, Colorado, and points west. Tree Peonies will be shipped by express collect only. East of Denver, include \$1.00 and shipment will be made parcel post prepaid.

P E O N I E S (Herbaceous)

The Peony is known as "King of the perennials". We have about 150 of the finer varieties, but do not have sufficient stocks to warrant listing them by name and description. They are in price from 75 cents to \$10.00 each. We ship Peony roots after September first. All freshly dug to order No storage Peonies.

SPECIAL — We will send you 5 peonies, all outstanding varieties, no two alike correctly labeled for only \$3.00 which is far less than catalogue prices. You get a real bargain by accepting my offer of 12 gorgeous peonies, all different for only \$7.50

Peonies may be left in place for 50 years or more.

I R I S E S

We have been growing Irises for the past 35 years, have grown and discarded hundreds of varieties, judged many shows, visited scores of gardens and studied many new introductions.

If you send us an order, even though small, like thousands of other gardeners, you will be convinced that any flowers you purchase from ARVISTA GARDENS will more than meet your fond expectations.

Please note, also, that most of our prices have been materially lowered.

SIBERIAN IRISES

We offer some of the finest Siberian Irises to be found any where. They will flourish in ordinary garden soil or where the ground is moist.

Siberian Irises are the ideal flower for the busy gardener because they require no more care than to keep them free from weeds. After they become well established they even crowd out the weeds.

A rhizome set out this year will soon form a large clump and produce a veritable fountain of flowers. It is not necessary to dig and separate the plants as the clump will become larger and more beautiful and imposing year after year.

Be sure to include at least a few Siberian irises in your order. They will provide you with gorgeous cut flowers the rest of your days. The delicately beautiful blossoms appear in great abundance on slender, tall, graceful stalks.
